The Be an Artist »Play with me« international art contest and exhibition will be held for the THIRTEENTH time in a row as part of the International Festival Year »Play with me«..

We invite you to send your artwork and participate in the art contest which will have two subjects in 2019/2020

1. PLAY WITH ME

The first subject of the contest is traditional by now: you can play alone, with your toys, you can dance, play sports, play on a computer..., you can also play with your friends, schoolmates, parents, grandma, grandpa, teachers, educators, dog, cat... you can play at home, on the playground, on the street, in the meadow, in the woods, at school, in kindergarten etc..

2. CLEANER SPACE, BETTER PLACE

In this day and age, we are all aware of the need to take care of our environment, but we still often fail to do so. What are you doing to preserve the environment? For example, you can help reduce waste by thinking about what you buy, you can reuse items or recycle them. Do bananas need a plastic bag? What about your old toys? Perhaps someone will be happy to play with them, make sure they do not end up in the bin. Recycling waste is friendly to our environment, because we make sure that useful waste is repurposed. By recycling we are also protecting our precious landfills from pollution and are taking care of our natural resources. Let us take care for our planet, it is the only one we have!
